

As an Indiana Citizen, I want to speak out against preceeding 02-278. I am very satisfied with our States Do Not Call Law and know that the effectiveness of this law will be diminished with preemption from the federal law. The phone service to my private residence is paid for by personal funds, and has been installed in my home for the personal use of my family. Local governments have restrictions as to door to door salespersons. Why should we not have the same or similar ability to restrain unwanted solicitation via the telephone?
